# Organization of City Government For the Year 1956

## Inaugural Address

Delivered by Mayor Wiggin S. Gilman, Jan. 4, 1956

---

Father Houde, Reverend Reinelt, Ladies and Gentlemen:

It is my proud privilege to be here before you tonight, to deliver by fourth inaugural address. I have said two or three years, as Mayor was enough, in my case the unexpected happened. Without an effort or struggle, and without a political contest, I have the honor to serve our city as Mayor for the fourth time, and I can assure you this is an honor and I am grateful.

It is impossible for us to think and act alike, and if we did what a dull world this would be. Nothing has ever done more for the advancement of civilization than the difference of opinions. When I find a man who differs with me, on any question concerning the welfare of our city, I have the greatest respect for his judgment and opinions, so long as he is honest in it.

Every administration has had the dark spots, and no administration has ever had unanimous approval of all of our citizens, consequently I am not vain enough to believe this administration just closed is an exception.

Three of our members are retiring, and I know you will all join me in thanking them for their untiring efforts which we all respected and profited by. To the four new members who have entered our ranks, I welcome you and invite you to begin your work without any regard to previous customs. If you can think of any better working methods than we are now using, it is your duty to advance the new ideas.

The new councilmen have the same privilege of expressing their ideas as to how things should be done as the councilmen now serving their second and third terms.

Now a few words about the different departments:

### **PARKS, PLAYGROUNDS AND BEACHES**

They have been very ably handled by the Park Commissioners, and our Director Clem Lemire. Very few realize the time and effort these gentlemen put in, and we should be grateful to them for a job well done.

### **POLICE DEPARTMENT**

This department during the past year has been very efficiently managed. A great deal of work has been done by the department, which I believe makes Franklin a better place to live in. I believe that some of the habitual law breakers have learned by experience to have a more healthy respect for our police department. I am sure we can look forward to better police protection for the year 1956.

### **FIRE DEPARTMENT**

Our fire department did a good job last year and I am sure they will continue to do so. Starting last October the regular men in the fire department have painted the entire Fire Station inside. The only cost to the city was for material. I personally want to thank them for a good job. Last year we replaced the Reo truck with a new GMC at a cost of \$7,966. Our fire department, outside of one truck, is in very good shape. Our hook and ladder truck is over 25 years old and we have got to be thinking about replacing this in the very near future.

### **RELIEF DEPARTMENT**

Our Relief department has been ably managed, and although the cost has gone up we had very little control of this. In 1954 our Old Age assistance was \$13,332.15; in 1955 it jumped to \$20,262.08. Our direct relief in 1954 was \$12,832.59 and in 1955 it was \$10,976.19. Boarded children for the year was \$1,711.18, so we must look forward to a higher appropriation for 1956 in the Relief department.

### **SCHOOLS**

The cost of running our schools is increasing each year. In 1953 the cost was \$200,500 and in 1954 it was \$209,596, and we

took from surplus in 1954, \$8,000 to pay off unpaid bills. In 1955 we appropriated \$233,000, we paid the insurance of \$3,404.90 and we paid the school bond of \$7,000, which makes the grand total of \$243,404.90 for 1955.

The City Council bonded the city for \$60,000 for equipment and repairing the parapet and two additional rooms for the Nesmith school, and a new cafeteria. As it turned out, this work could not be done for anywhere near the figures that the experts estimated, and up to this date we have bought the equipment for the machine shop, the woodworking shop, and the dishwasher for the cafeteria, and we have made one payment on the parapet and we still have in the bank \$43,715.76 left from the \$60,000 bond issue.

We spent for architects \$3,882.96 for plans which I am wondering if we will ever use and now I understand the school board is recommending we go back and hire engineers for a starting cost of \$3,000 to make a survey of our school needs. When their survey is made I wonder if we have to go back and hire some more architects.

This is not the first time that Franklin has had to have more school space. I wonder what some of our old timers would think, like Walter Aiken, A. W. Sulloway, Warren Daniell and Judge Towne, if they could see us floundering around. When in their time the Nesmith school was not big enough they put an addition on and when the Parker-Hancock wasn't big enough they put an addition on it also, and the same applied to the Junior High. If it is two rooms we need why don't we build them. We have the money right here in the bank, what are we waiting for, or it is that our schools are no longer usable and we have got to have new ones? I don't think so.

I still think we are wasting a lot of time and money for expert advise which could be handled locally.

## **PUBLIC WORKS**

Public Works department never gets too much credit, but has made a lot of progress in the last two years. This last year they tarred and resurfaced over eight miles of streets. They built and

replaced over 4,000 feet of sidewalk. They put in a new steel bridge at Kimball Street and a new section at Cross' bridge 26 feet long, which includes cribbing and side rails. We had flood damage last year which could have cost the city a lot of money, but we handled most of it with our regular highway crew and outside cost was a little over \$600.

The question always comes up about permanent roads. I think Franklin has fared pretty well in the last years. One mile of South Prospect Street at a cost of \$11,000, Cheney Hill cost of \$6,000, 6/10 mile of East Pleasant Street cost \$6,000, 4/10 mile at North Main Street cost \$11,000. Babbitt Road 6/10 mile cost \$500. Grand total of \$39,000. The state paid 80% of South Prospect Street, East Pleasant and Babbitt Road. North Main Street and Cheney Hill they paid 50%, and the city 50%.

I would like to recommend for this coming year, that the Highway Department reshape and resurface the foot of School Hill to Elkins Street and resurface and build much needed sidewalks.

#### **LAST**

In my closing remarks I want to say a few words in regard to appropriations. It is very easy to draw up an appropriation larger than your needs, and at the end of the year have a large surplus, but in drawing up an appropriation this should be based wholly on your past expenses and the current needs for the coming year.

In 1953 we had a surplus of \$18,170.26; we used \$18,000 to hold the tax rate in 1953. During 1953 we accumulated a surplus of \$16,314.41 and in 1954 we used \$12,000 to reduce the tax rate.

In 1954 we had a surplus of \$8,768.91 and we used \$6,000 to reduce the tax rate in 1955. Before the books were closed in 1954 we transferred from surplus \$8,000 to the school appropriation, and in 1955 we have an overall surplus of \$14,266.55 which not only pleases me, but I am sure every department should be proud of the grand job they have done.

They had a close budget and not only lived within it, but found a way to have some left.

**6 - - - City of Franklin**

The three years I have been Mayor taxes have increased, valuations have dropped, so don't look for 1956 to be any exception.

In the past I have been able to put a lot of time in city affairs but this coming year my health will not warrant it, and the Council Committees will have to carry the biggest part of the work load.

In my final words for the citizens of Franklin, for the confidence they have placed in me, I will try and not fail you, and I wish you all a Prosperous and Happy New Year.

# Auditor's Report

## CITY OF FRANKLIN, NEW HAMPSHIRE

### FOR THE YEAR 1956

January 9, 1957

To the Honorable Mayor and City Council  
City of Franklin  
Franklin, New Hampshire

Gentlemen:

Complying with your instructions and in accordance with the City Ordinances, I have made an examination of the books and records of the City of Franklin for the year ended December 15, 1956 and submit herewith my report consisting of exhibits, supporting schedules and comments.

#### SCOPE OF AUDIT

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and supporting evidence as was considered necessary under the circumstances. Verification letters were mailed to a substantial number of outstanding Taxes and Accounts Receivables. Except for the Taxes and Accounts Receivables and some year-end adjustments, the general books of the City are kept on a cash basis and hence reflect cash receipts and disbursements only. No provision has been made to charge the departments with any unpaid balance as at the year-end.

#### BALANCE SHEET—GENERAL FUND

##### EXHIBIT A

The Balance Sheet—General Fund reflects the financial condition of the City of Franklin as at the close of business, December 15, 1956. The Comparative Balance Sheet, Exhibit A, Schedule 3, discloses the increases and decreases in the various accounts between the years of 1956 and 1955.

#### Cash on Hand and in Banks—\$24,304.52

The cash on hand was verified by count as at the close of business December 15, 1956 while the cash in the bank was reconciled to the bank statement and the independent verification received from the depositories. The receipts were traced to the bank deposits and all checks cancelled during the year were examined.

**Accounts Receivable—\$942.57**

A listing of the unpaid Accounts Receivable was in agreement with the controlling account. I tested the charges and credits to the Accounts Receivable cards. Letters of verification were mailed out to all of the outstanding accounts.

**Taxes Receivable—\$60,718.80**

The above item represents uncollected taxes as at December 15, 1956 against which there is a reserve for uncollectible taxes of \$1,351.40. Exhibit A, Schedule 1, details the activity of the levies of the various years and also discloses the difference between the control and the detail. Several hundred verification letters were mailed to the open accounts on Property and Poll Taxes. Any differences reported to me were thoroughly examined. Approximately 11% of the 1956 taxes remain uncollected.

The 1956 Tax Warrant was completely footed and proved to the control. The valuation was also proved. A spot check was made of the daily receipt stubs on taxes collected which were further traced to the tax ledgers.

The tax rate of \$60.80 as approved by the State of New Hampshire Tax Commission was confirmed by direct correspondence.

**Unredeemed Tax Sales—\$5,892.19****Property Acquired by Tax Deed—\$1,224.81**

These items represent property acquired for non-payment of taxes and were accepted as shown on the books.

**Head Taxes Receivable—\$6,624.00**

When collected, the above taxes will be paid to the State of New Hampshire.

**Due from the State of New Hampshire—\$8,527.55**

This caption is detailed on the Balance Sheet. Most of the items were independently verified as at the close of the year.

**Temporary Loans in Anticipation of Taxes—\$70,000.00**

This amount represents the balance due the First National Bank of Boston on borrowings in anticipation of taxes and was verified by correspondence. This liability was increased \$5,000 over the balance of the preceding year. Although the 1955 Budget did not provide for the reduction of this loan, it is my recommendation that provisions be made for the systematic liquidation of this liability.

**Reserve for Head Taxes—\$6,601.00**

The City's liability to the State of New Hampshire on Head Taxes is reflected by this account.

**Parking Meters—\$5,679.74**

This amount represents the balance on the Parking Meter collections the cash for which is included in the General Fund Cash Account.

**Unexpended Balance Carried to 1957—\$4,265.53**

The balance carried to 1957 is comprised of the following:

Soldiers Memorial	\$4,150.00
Webster Lake Development	115.53
	<hr/>
	\$4,265.53
	<hr/>

**Surplus—\$16,025.56**

Exhibit A, Schedule 2, 2A, 2B and 2C show the results of budgetary operations for the current year and further support the amount transferred to Surplus. The Council approved transferring \$10,000 of the Surplus as a credit to the 1956 Budget. As a result of the current year's operation, the Surplus increased \$1,799.21 over the balance at the beginning of the year.

**BALANCE SHEET—GENERAL INDEBTEDNESS  
EXHIBIT B**

The Balance Sheet—General Indebtedness discloses the City's liability on bonds and long-term notes as at December 15, 1956. A detail of the indebtedness appears on Exhibit B, Schedule 1. All bonds cancelled and interest coupons paid during the year were produced for my inspection.

Cash in the banks was reconciled to the bank statements and the Savings Bank passbooks all of which were independently verified with the depositories.

The amount due from the Water Works is offset by the contra Water Works bonds shown on the liability side of the Balance Sheet. The Water Department liquidates this liability out of its own funds.

**BALANCE SHEET—TRUST FUNDS  
EXHIBIT C**

The Balance Sheet—Trust Funds records the assets and the sources of such assets in the custody of the trustees of the Trust Fund.

**Cash in the Banks—\$38,919.58**

Cash in the Commercial and Savings Banks was reconciled to the bank statements as well as the confirmation received from the depository.

### **Investments—\$85,407.87**

The securities were verified by examination in the presence of a trustee of the Trust Fund. Exhibit C, Schedule 1, lists the various trust funds, the investments in each and shows the activity for the year.

### **Overseer of the Poor—Statement of Cash Receipts and Disbursements**

### **School District—Statement of Cash Receipts and Disbursements**

### **Public Library—Statement of Cash Receipts and Disbursements**

The books and records of the above were examined and cancelled checks were compared with the Cash Disbursements records. The cash in the bank at the close of the year was reconciled to the bank statement and the independent bank confirmation. The School Department had an overdraft of \$120.81, but unpaid invoices were substantially lower than the preceding year.

### **Payroll**

I examined all payroll checks during the year and reconciled the bank statement.

### **City Clerk's Office**

The books and records of the City Clerk's Office were spot checked. The daily cash register tapes were checked to the Cash Receipts book and traced to the bank deposits. A spot check was made on automobile permits and dog licenses during the year as well as other business licenses.

## **GENERAL COMMENTS**

It has been the general policy of the City of Franklin to elect as treasurer of the schools, one not connected with their accounting office. The apparent purpose for this is to maintain independent control over their financial records. At the present time, the treasurer is also employed in the accounting office of the school. Since this obviously defeats the intent of keeping records independently, it is my suggestion that a person other than the one employed as bookkeeper for the School Department be elected as treasurer.

I wish to express my appreciation to all the City Officials and the members of their staffs for the cooperation and courtesies extended me during the audit.

Respectfully submitted,

LEONARD D. RICCIO,  
Certified Public Accountant

The forty-ninth annual report of the Franklin Public Library covers a variety of activities carried on by the library staff under the direction of its Board of Trustees.

The statistical report for 1956 registers the current use of the library collection that has been built up through the years. During the year, 954 books have been added, 807 by purchase, 147 by gift. The adult additions were 759, with 195 titles added to the children's room. There are 164 magazines received, 63 being gift subscriptions. Newspapers arriving regularly are 6 dailies and 2 weeklies. The Memorial Book Shelf has received 12 additional volumes, the list of such books and their donors appearing in the Journal-Transcript the last week of May each year.

The book collection tally stands at 28,871 volumes, after a drastic weeding and discard of 1,263 worn or out-of-date books. The circulation for the year totaled 40,179 items, including books, magazines, pamphlets and pictures. Our reading score seems to remain about the same the past few years, 6.28 volumes per capita this year, with the average per borrower figuring 13.5 volumes. The reading average of fiction remains static at 43.2%, with non-fiction rising to 33.7%.

New registrations numbered 449. Of this number 367 were local and 82 non-residents. There were 338 inactive cards withdrawn, leaving 2,959 active borrowers.

Constant use of the children's room is evident when one considers the circulation of 12,073 juvenile books. Book Week in November was a busy one, with over 500 children and teachers visiting the library to see the 125 new books and many old favorites on display. An exhibit of 40 New Hampshire books was of interest to the visitors from the upper grades, the books being borrowed from the State Library, each book having a

fresh plastic cover. A very good number in this group of books already are in our juvenile collection. Inter-library loan records show 47 books borrowed from other libraries, through the State Library, and 13 of our books were loaned in the same manner. Teachers have had 43 classroom loans, with a circulation of 454 volumes. A summer camp, by special arrangement, borrowed 100 books during July and August. A collection of 50 mysteries and westerns has been loaned to a neighboring small library.

Another silent book auction was staged in August. Over 200 books were available for bids. The public enjoys these informal sales, and the book fund profits from them. Library Hall continues to be the regular meeting place of the Franklin Woman's Club, the Franklin Community Garden Club, and the Hospital Auxiliary, with other less regular meetings being held there or in the Draper room. Exhibits are something many visitors expect and enjoy. Two outstanding displays were: an interesting variety of weaving done by Arthur L. Newton, blinded war veteran; and fine photographs and unusual souvenirs of Spain, loaned by Mr. Jere Daniell, who once resided in Spain for a period of fifteen years. Smaller exhibits were arranged on Benjamin Franklin, Daniel Webster, souvenirs of World Wars I and II, local historical items, stamps, and TB seals of the world. The librarian set up an exhibit of garden books and magazines requested for guest night of the Franklin Community Garden Club.

New items of equipment added during the year have been a 4-drawer steel file, a small steel typewriter desk-file combination, a wrought iron book rack, a metal utility table, an 8-foot step-ladder, and three groups of educational miniatures.

Summer hours were in operation from the close of school until after Labor Day. Daily closing hour was 6 o'clock, except Friday when the library closed at 8 o'clock. During the summer six tabletops in the two reading rooms were completely refinished by Mr. Colcord.

The library staff, including those who have given excellent care to the building and grounds, has remained the same as the previous year. The library was fortunate to secure the services of Miss Britta Karlberg during the staff vacation period. Mrs. Ethel L. Hanley, assistant librarian, received for the second year the New Hampshire Library Association \$75 award toward expenses of a three-week course in library techniques at the University of New Hampshire. In August the librarian was a speaker on the Old Home Day program at New London, and during the fall months gave book talks at meetings of the Beulah Class and the Woman's Alliance.

\* Library meetings attended by the librarian were the Vermont-New Hampshire Library Associations meeting at Lake Morey, Fairlee, Vt.; a special day for New Hampshire librarians at the University of New Hampshire; the dedication of the Grace Blanchard room at the Concord Public Library; and the meetings of the city librarians of the State, called at the State Library. The chairman of the Board of Library Trustees and the librarian attended the annual meeting of the New Hampshire Historical Society. The library staff attended the reception for Miss Catharine Pratt, Assistant State Librarian, when she retired in June.

The announcement of the passage of the Federal Library Services Act, made at the Lake Morey meeting, was a high light of the opening session. Under the law, New Hampshire is entitled to \$62,000 a year for each of the next five years "to promote the further development of public library services in rural areas." Rural areas are defined as communities of less than 10,000 population, which is the reason the Franklin Library stands to benefit from the passage of the Act.

Gifts of articles of local interest have come from Mrs. Cyprien Roy, Clyde C. Brown, Mrs. Herbert D. Swift, Mrs. Martin Streeter, Wallace Buchanan, Franklin High School Class of 1956, Miss Gertrude Dresser, Hubert Burrows, Miss Laura Gilman, Mrs. Clara Richards, and the Franklin Woman's Club. Other friends and organizations have been generous with gifts of books and magazines which have been appreciated. Mr. Basil Broadhurst presented the library with his personal library when he sold his home.

Important additions to the reference collection have been the latest Britannica Junior Encyclopedia (15 vols.), purchased with the Elsie Y. Closson Fund; The Granite State of the United States, by Dr. J. Duane Squires (4 vols.), purchased with the Anna G. Blodgett Fund; and New Hampshire Notables 1955, a Contributors' Fund purchase.

Library publicity has been generously carried by the Journal-Transcript and the Concord Monitor either weekly or on special occasions.

At the close of the year a much-needed new heating system was in the process of installation. It promises to be a great improvement throughout the three floors of the building.

The cooperation of an interested board of trustees and library staff makes possible better service to the community. The librarian wishes to express her appreciation of this attitude on the part of her Board and Staff, and for the genuine interest

in the library shown by so many borrowers and visitors throughout the year.

Respectfully submitted,

MILDRED J. PEASLEE  
Librarian

George B. Rochfort, Jr. was elected to the new position of Elementary Supervisor. Mr. Rochfort taught Grade 5, and was Building Principal at Nesmith School for the last two years.

### **Home Instruction:**

A program of Home Instruction has been established this year. Mrs. Barbara Jowders has been employed part-time to visit the homes of four handicapped children for the purpose of providing instruction in fundamentals. Included among the students are cases of cerebral palsy, and children hospitalized for severe burns. This program has been very successful and should be continued as long as there are children in town who need instruction.

### **Salary Schedule**

The School Board has adjusted the salary schedule range from \$3,000 to \$4,400 with one increment of \$200 and eight additional increments of \$150. In order to equalize discrepancies in salaries,

increments up to \$450 were awarded to some of the older teachers in the school system. Our new minimum salary is still below the beginning salaries being asked by new teachers from Plymouth and Keene Teachers Colleges. Some of the 1957 graduates have already been employed for \$3,200.

### **School Building Problems**

Since the last annual report, Dr. Nicholas Englehardt, Jr. has completed a survey of the school building needs in the City of Franklin. Dr. Englehardt made the following recommendations:

1. Build a new elementary school in the north-east section of town to house Kindergarten through Grade 6. This building should have 12 classrooms, a playroom, and a multi-purpose room for assembly and cafeteria. Until the Nesmith School is abandoned, this building may house temporarily, Grades 4, 5, and 6 for the entire City.

2. Abandon Nesmith School in approximately 5 years, and replace with a new elementary school on a larger site in that section of the City.

3. Plan to use Hancock School for approximately 15 years, and replace on a larger site as needs dictate at that time.

4. One room at Nesmith and one room at Hancock should be made for audio-visual, remedial, and special educational purposes. Toilets in both buildings should be placed on the first floor.

5. Build an addition between the High School and Jr. High School with facilities for Jr. High Shop, cafeteria-multi-purpose room, band, audio-visual room, arts and crafts room, five classrooms, and physical education lockers and showers.

6. Improvement of library and science facilities in both the High School and Jr. High School.

A School Building Committee was formed. Six members were appointed by the School Board and six members appointed by the City Council. The original members of this committee were Dr. Fred Ziegler, Mrs. Thelma Rosenblum, Malcolm Thompson, S. Melvin Nelson, George Rochfort, Mrs. Freida Keegan, George Gignac, M. Guy Gilman, Harold Retter, Donald Piper, Alonzo Gile, and Richard Kidder.

The School Board and School Building Committee have met jointly many times during the last year. As a result of their deliberations, Alfred T. Granger of Hanover, has been employed as an architect. The City Council has authorized 1½% (¼ of the total architects fees) of the building cost for the preparation

of preliminary plans for a 10-12 room elementary school including a multi-purpose room, principal's office, teachers room, and health room; and, an addition to provide special purpose rooms in the High School-Junior High School area. Preliminary plans for these two units will be available in April 1957. It is hoped that the City Council will act speedily on these two additions so that better facilities will be available as soon as possible.

### **Maintenance and New Equipment**

During the last school year, several major projects were completed, some of which are listed below:

1. Painting of classrooms and corridors at Hancock School.
2. Installation of two rooms of fluorescent lighting in Hancock School.
3. Installation of new window shades in all Hancock School classrooms.
4. Purchase of swings, slides and teeter-boards for playground at Hancock School.
5. Construction and installation of a 3-compartment sink in the Hancock cafeteria.
6. Construction of a fire-wall, fire-proof ceiling, fire door in the boiler room, fire exit from girls toilet, and installation of a sprinkler system in the boiler room and cafeteria of Nesmith School.
7. Construction and installation of a 3-compartment sink in the Nesmith cafeteria.
8. Purchase of a refrigerator for Nesmith cafeteria.
9. Purchase of four storage cabinets, and three portable blackboards for the Kindergarten rooms at the Christian Church, and Grade 5 of Thompson Hall.
10. Installation of panic bars and reversal of doors at the High School and Junior High. Installation of panic bars on three front doors at the High School.
11. Purchase of an electric stove for the home economics room at the High School.
12. Purchase of a lathe for the wood shop, and a lathe for the machine shop.
13. Purchase of 13 teacher desks and chairs.
14. Purchase of 200 chairs and two chair trucks for the High School.

15. Purchase of three adding machines for the High School Business Education Department.

In addition to the above major items of maintenance and new equipment, the School Department has completed many small maintenance projects throughout the school system. Mr. John Taylor and Mr. Michael Sarkesian were employed during the summer to work on some of the above items, as well as many small items. Mr. Frank Southmayd has been employed to build shelves, repair doors, repair buildings, etc. The money appropriated for the work has contributed a great deal to the overall improvement of our buildings and has definitely contributed to a more efficient operation of our entire school plant.

The City of Franklin should be commended for providing additional funds for the improvement of the school system. The Superintendent appreciates the fact that the School Board and City Council have honored most of his requests for funds to improve salaries, purchase new equipment, and improve our old buildings.

The major task now facing the School Department is to complete the school building program outlined above. As the City moves forward to accomplish the construction of new buildings, the continued maintenance and upkeep of older buildings must not be forgotten. Substantial funds are needed in the next few years for paint, install improved lighting, and improve the heating system at the High School and Junior High School.

I wish to express my appreciation to the School Board, school staff, and the people of Franklin, for their cooperation and support during the last school year.

Respectfully submitted,

RICHARD A. MARTIN,  
Superintendent of Schools

## ANNUAL REPORT OF THE PRINCIPAL

### To the Superintendent of Schools:

The Summary of enrollment on January 2, 1957 is as follows:

	Girls	Boys	Total
Seniors	41	26	67
Juniors	34	37	71
Sophomores	59	44	103
Freshmen	67	62	129
Post Graduates	1		1
Totals	202	169	371

This enrollment figure shows an increase over last year. The present Freshman class is 26 pupils larger than last year's class. This reflects the gradual increase expected for several years.

### Progress During 1955-56

The following item was written by James Keegan, Class of 1958, in "The Point". It is reproduced here because it covers progress during the year:

#### "Something You Can Be Proud Of"

"This is a list of the improvements carried out in Franklin High during the year 1955-56. The first part is in regard to personnel.

1. A full-time job was made out of the position of Vice-Principal.
2. An art instructor was hired to handle a course in art instruction and appreciation at the High School level.
3. Because sixty-four boys and girls indicated in June that they wanted to register for Driver Training, and because all statistics point to the value of this offering as it effects the highway accident toll, the Driver Training program was included in this year's program.
4. Because ten boys and girls indicated that they wanted to take first year Latin, a qualified teacher was hired and is teaching the subject this year.
5. An extra janitor was hired because the janitorial staff was inadequate and because the buildings and grounds needed more attention. (Two of the three janitors drive buses at the time when the building should be cleaned.)
6. A remedial reading program may be set up soon to help pupils who are reading several grades below level, without taking class time away from the teacher.

This second part concerns what has been done with the buildings and grounds:

1. Because the lighting in the driveway was inadequate for the constant use received by the school building at night, the candle power of the street light opposite the driveway has been increased.
2. The auditorium chairs are in the process of being replaced by individual metal chairs purchased in sets with a storage rack having castors.
3. New lockers have been installed in the boys' locker room.
4. A new lathe has been purchased for the wood shop, and two lathes were purchased for the machine shop.
5. In order to give commercial trainees more experience with modern business machines, a new electric adding machine and a dictaphone were bought for the Business Education Department.
6. A ventilator has been cut in the top part of the air shaft over the end of the dishwashing machine to get rid of the large volume of steam which collects in the room.

Future improvements are now being considered to make Franklin High a better place for you, me, and everyone."

#### **RECOMMENDATIONS FOR 1956-57**

These recommendations are the result of work done by teachers after discussion of the needs of the school.

We recommend the hiring of a full-time guidance person to develop a program for grades 7-12. The State Department of Education has offered financial assistance to communities willing to begin a pilot program.

**Music:** Our music program could be greatly improved by the addition of a person qualified to teach instrumental music, both band and orchestra, and music appreciation. As it is now, our music instruction is limited to vocal instruction during the school day. The only instrumental work is held after the regular school day in the form of band rehearsals. The band is dependent on its own resources for fund raising. The only support from public funds is the salary of the person who rehearses the band.

**Lip Reading:** We have had an effective program of lip reading instruction for hard of hearing children. This service is relatively inexpensive and improves the progress in all school work for the children concerned. I join with the nurse in requesting renewal of the service.

## **Buildings and Grounds**

**Driveway Lighting:** The lighting of the driveway is inadequate for the constant use, at night, of the high school building. It is recommended that banks of flood lights be placed at several spots around the parapet to light the parking areas at the side of, and in back of the building.

**Shop Equipment:** It is recommended that the plan of replacing machinery in the shops be continued. This would mean two machines for wood shop and three machines in the machine shop.

**Class Room Lighting:** Our lighting improvement plan was not followed this year. The sewing room and study hall should be changed to fluorescent this year. Our present lights on the north side of the building do not give the minimum illumination recommended for class work. It is recommended that fluorescent lights be placed in the study hall and in the sewing room this year.

**Athletic Field:** In order to keep the athletic field in good shape, it will need attention every year. A definite sum should be set aside for annual fertilization, seeding and care.

**Gym Blackout Shades:** The window shades in the Gym are beyond repair and have to be replaced. We need the type which will blackout all light. We cannot use the Gym for projection purposes unless the shades are run in tracks.

**Stage Curtains:** The curtains on the stage cannot stand another fireproofing. They were repaired recently and cannot be repaired again. Plans should now be made for replacement.

**Floors:** The main corridor floor is sagging in several places again. In one spot it has cracked and the tile is breaking off. This needs to be repaired this year.

We present the recommendations for your consideration, fully aware that more than one year will be needed to put them into effect. They represent our thinking as to the educational needs of this institution which require budgetary provisions. As such, they need to become a part of the developmental plans of this City.

## **Evaluation of Grades 7-12**

In September 1956, the combined teaching staff of grades 7-12 began an Evaluation Study of the Junior and Senior High Schools. We are using as a guide, the "Evaluative Criteria", as developed by the Cooperative Study of Secondard School Standards.

Dr. Maurice O'Leary, Principal of Springfield High School, Springfield, Vermont, is our professional consultant. The plan is to complete the study during the month of April. A visiting committee of educators will be invited here in May to do an evaluation and report to the School Board. We hope this will result in improving the educational opportunities for the children of Franklin.

It has been a pleasure to work with you and the School Board, as well as the teaching staff as we share the responsibility of Education in the City of Franklin.

Respectfully submitted,

JOSEPH J. CASHMAN  
Principal

## REPORT OF THE SCHOOL NURSE

School health services are made up of procedures established to appraise the health status of pupils; to counsel pupils, parents, other interested personnel concerning the results of the appraisal; to encourage the correction of remediable defects; to assist in the identification and education of handicapped children; to help prevent and control disease and to provide emergency service for injury and sudden illness. School health services, however, supplement, but are not a substitute for the health care which parents should provide for their children. Rather than relieving parents of their responsibilities, these services are designed to encourage parents to devote attention to child health, to acquaint them with health problems of which they may be unaware and to encourage them to utilize the services of their physician and dentist.

The following is an account of the health services offered in the Franklin schools during the past year.

The general objective of our eye health program has been to promote visual health and efficiency by protecting the eyes and sight of all pupils. Each child should have an eye examination at least once a year and especially before he enters school. This is the best time to detect those eye defects which may impair not only the child's school work, but his efficiency in later life.

During the past year, the Massachusetts Vision Test was administered to 1,862 children. It is encouraging to find the number of children in our schools who have secured vision corrections as a result of our vision testing program.

Hearing is also a priceless possession. It is obvious that a serious impairment of hearing can be a real handicap and as crippling as any other physical defect. For this reason, 1,785 children in the Franklin schools were tested with the Puretone Audiometer Instrument. Twenty-three children were found to have a hearing loss of ten percent or more in either or both ears.

As a result of many years of medical research and the vigilance of physicians who urge immunization of all children, cases of diphtheria are relatively few and deaths seldom occur in well-immunized communities. A Toxoid Clinic was held during the months of April, May, June and July with 153 children in attendance.

The Tuberculin Test is one of the most important tools in a good tuberculosis diagnostic program. On February 10, 693 children and teachers received this test. Fourteen children had a positive reaction to the test and, as a result, were X-rayed on March 21, 1956. Two chest clinics were also held in January

and June at which time sixty-four children were examined by Dr. Robert Kerr, M.D.

Five million persons with speech disorders comprises the largest single group of handicapped people in America today. I feel that we are indeed fortunate to have the services of Miss Rose Manes, our speech teacher, who has been coming to the Franklin schools twice a month. Thirteen to sixteen children are scheduled to see Miss Manes on her visiting days in Franklin.

Miss Mary Bullock, physiotherapist of the New Hampshire State Board of Health, has been coming to the "Treatment Center" at the Daniell Junior High School on the first Friday of each month. Miss Bullock supervises the exercises recommended by the attending physicians at the orthopedic clinics. The total number of children seen by Miss Bullock during the year 1956 was seventy-five. Twenty children attended the various orthopedic clinics in the state.

A Pre-School Clinic was held on May 22, 23, 24 and 25, which was attended by 113 children.

During the period from October 1955 to June 1956, 4,176 hot lunches were served to deserving children. At this time I wish to express my sincere appreciation to the directors of the Tobie Trust Fund, as well as to the various organizations and individuals who made this project possible.

This year 150 pupils were examined prior to participation in the athletic program of the Franklin High School.

During the year, 1956, the school nurse made 1,326 visits to the various schools in Franklin.

A Poliomyelitis Clinic was held on June 4, 1956 for all children from the age of five to fifteen years of age. At this time 382 children were inoculated. On June 27, 1956 eight school children attended the Pre-School Poliomyelitis Clinic. It is gratifying to check the number of school children who have been immunized by their own physician.

Tooth decay may begin anytime after the baby teeth appear and may be a real problem by the age of three. It is important to take care of the teeth of a child whether they are the primary or permanent teeth. A total of 985 children received dental care during 1956 school year.

I wish to take this occasion to express my sincere gratitude to all for their wholehearted cooperation and financial assistance during the past year.

Respectfully submitted.

MARION MOYNIHAN, R.N.
